Ted,

alas, our epic journey is over. Troy and I have safely made it back to LA, but not without some lamenting at the border...It was an incredible evening, and I want to thank you and the fellas for being what was unanimously deemed "the best wedding band ever".

I was so wholesomely high and happy I dare say I don't remember a thing that occurred on Sept 24th, it all went by so disarmingly fast! I do remember your playing "Burning Ring of Fire" --thank you!-- i remember too that some of the wedding party fell into that very same ring...oops...!

You probably don't need it but if you should, we would love to sing your praises to any uncertain couples-to-be looking for a band to rock down the house. Our raving testimonial is ever at your request.

I am loath to end our brief and budding friendship so I will part with this-- if ever you or yours are in the area, know that you are always welcome in our home.

Thank you again for all the joy you contributed to our wedding. All our best to you and the band.

Sincerely,
Shirleen
